GLIDEROL™ Panel•Glide

Sectional overhead garage door

Gliderol Panel•Glide

Sectional overhead garage door

PANEL•GLIDE IS GLIDEROL'S REVOLUTIONARY ALTERNATIVE TO THE TRADITIONAL GARAGE DOOR.

Designed to suit both modern and more traditional homes, the Panel•Glide uses modern design concepts to provide new levels of performance and style. Featuring the latest raised panel design the Panel•Glide comprises a number of hinged rigid sections which slide overhead creating a lightweight stylish garage door. Gliderol's Panel•Glide includes a strong bottom rail offering additional strength and comes with optional low headroom tracking for tight headroom situations.

The Panel•Glide utilises bearing rollers offering minimal noise and friction, making it a strong and versatile option. With a choice of four designs, Oxford, Madison, Tuscan and Hampton, the Panel•Glide's Colorbond® finish will suit any home and enhance your home's street appeal. Like all Gliderol products the Panel•Glide is Australian designed and manufactured specifically for Australian conditions.

The Oxford

The Oxford design uses classic Georgian squares to provide a traditional look to any home. Each square is precision pressed in manufacturing for quality and strength. Ideally suited with Gliderol's woodgrain finish, the Oxford design is also available in a smooth finish.

The Madison

The Madison design uses clean sharp lines and a textured finish to perfectly blend with rendered homes. Available in either woodgrain or smooth finish, the Madison is the right choice if you are looking for a door to blend with and complement the façade of your home.

The Tuscan

The Tuscan creates a timber planked style door that is built with low maintenance Colorbond® steel. Horizontal 'V' grooves create a sleek and contemporary look for your home. The Tuscan provides the perfect design for modern homes.

The Hampton

The Hampton design combines the look of timber with the strength of steel. Elegantly incorporating rectangular embossments and available in either woodgrain or smooth finish, the Hampton suits both modern and more traditional homes.

Colourgrain (colour option)

If you are after a golden oak or timber-like finish then Gliderol's Colourgrain is an option you might like to consider. The Colourgrain is specifically designed to look like the more expensive timber doors. Made entirely from BHP steel, Colourgrain is an attractive, cost effective, hard-wearing and low maintenance alternative to timber.

Features & Benefits

- Suits modern and traditional homes
- Optional low headroom tracking
- Four design options
- Australian owned and made
- Free measure and quote

This product can be compatible with G+ Home Access systems
